

Industrial & Commercial Stack Testing

Stack Emissions Testing for Unmatched Compliance & Performance

The Leading-Edge of Source Emissions Testing.

Encino Environmental Services division is at the forefront of the environmental industry in stationary source emissions testing. With over twenty years of experience in a wide variety of Title V compliance testing categories, we strive to provide our clients with comprehensive services and options. Supporting services of any scope and size, no job is too small or intricate for Encino Environmental Services.

Leading-Edge Mobile Labs & Technical Expertise

Our trained personnel are equipped with the latest state-of-the-art equipment to ensure efficiency, reliability, and accuracy. In a field that is continuously evolving, it's critical to update knowledge, equipment, and testing techniques, and we embrace these challenges.

Our staff understands the complexities of dealing with local, state, and federal regulatory entities, and we pride ourselves on bridging the gaps between our clients and those agencies. Encino Environmental Services will assist you from the beginning to the end of the process, from pre-compliance to compliance to performance, to keep your facility operating at peak efficiency while remaining cost-effective.

Key Benefits

- ✓ Proactive Communication and Immediate Results
- ✓ Extensive Expertise
- ✓ Diverse Title V Testing Services
- ✓ State-of-the-Art Equipment and Techniques
- ✓ Regulatory Expertise and Support

Services

- CEMS RATAs (Relative Accuracy Test Audit)
- Compliance Tests
- CO, CO₂, NO_x, O₂, and SO₂, VOCs, PM, HCHO, NH₃, and many more.
- Diagnostic Tests
- Control Equipment Recommendations
- Flare CEMS RATAs
- HCL/HF & H₂S/TRS Monitoring
- Instrumental Emission Testing
- 30-B Mercury
- Mobile CEMS Laboratories
- Particulate & Particulate CEMS Audit
- Performance Tests
- Pilot Plant Testing
- Sampling During CEMS downtime (Gap Filling)
- Subpart JJJJ (Quad J) & Subpart ZZZZ (Quad Z)
- Thermal Oxidizer Temperature Optimization
- Total Hydrocarbons VOCs
- Trial-Burn Tests
- Visible Emission (Opacity Monitoring)

Testing by Facility/Source

- Asphalt Plants
- Baghouses
- Baking Ovens
- Boilers
- Coating Lines
- Compressor Stations/Engines
- Thermal, Regenerative & Catalytic Oxidizers
- Crematories
- Electric Arc Furnaces (EAF's)
- Extruders
- Hydrocarbon Flares
- Incinerators
- Lime Kilns
- Landfills
- Paint Booths
- Power Plants/Turbines
- Printing Presses
- Regenerative Thermal Oxidizers (RTO's)
- Scrubbers
- Thermal Oxidizers
- RNG Facilities

THE ENCINO ADVANTAGE

As a service provider, we understand our role in helping clients meet their compliance obligations and achieve their environmental performance objectives. Whether you need one piece of the puzzle, or the entire picture, we can help design and tailor an emissions monitoring and performance program that fits your operational needs, corporate strategy, and budget.
