Pressure Relief Valve (PRV) Testing & Valve Greasing

Ensuring Safety, Efficiency, and Compliance with
Expert Valve Testing and Maintenance Solutions

Services Designed to Protect & Extend The Life of Your Assets

Encino Environmental provides on-location PRV testing with our mobile testing units, as well as full service at our facility in Casper, Wyoming. We repair and test PRVs of all manufacturers, ranging from 1/4" to 8" in size, for air, gas, liquid, and sour applications.

Keep Your Operations Running Smoothly, Safely, & Profitably.

Our comprehensive PRV testing services include:

- **In-House and On-Site Testing:** Convenient testing options available either at your location or at our Casper facility.
- **Multiple Applications:** Testing for air, gas, liquid, sour gas, and more.
- **Expert Repair and Recertification:** We handle repairs, conversions, testing, and recertifying of PRVs, ensuring they meet all regulatory requirements.

Each PRV is tested three times to ensure accuracy, and the average result is recorded in detailed test reports. Upon successful certification, valves are sealed, tagged, and reports are delivered. For added convenience, customers can opt for LeakTrak, which allows for easy access to valve reports whenever needed.

Key Benefits

- ✓ **Comprehensive Testing & Repair:** On-site and in-house expert PRV testing, repair, and recertification.
- ✓ **Extended Equipment Life:** Regular maintenance reduces wear and extends valve lifespan.
- ✓ **Regulatory Compliance:** Ensure all valves meet safety and regulatory standards.
- ✓ **Convenient Reporting:** Easy access to test reports via LeakTrak system

Valve Greasing Services:

Regular valve greasing is crucial to maintaining the efficiency and lifespan of your valves. At Encino Environmental, our fully mobile greasing unit can service your valves at your location, offering routine lubrication that helps prevent seizing and reduces operating torque.

Proper valve greasing ensures:

- **Smooth Operation:** Valves operate easier and seal more effectively.
- **Extended Valve Life:** Regular maintenance adds years to your valve's lifespan.
- **Wyoming-Weather-Resistance:** We use grease products that withstand harsh conditions and are suitable for natural gas, sour gas, water, LPGs, and more.

Our valve greasing services help ensure your valves perform effectively in any environment.

Parts & Accessories:

We also offer a wide range of parts and accessories to meet your equipment needs:

- Stainless Fittings
- Valves & Repair Kits
- Inductive Ignition & Air Fuel Ratio (AFR) Control
- Starters
- Catalysts & Elements
- Thermocouples, RTDs & Sensors
- Ignition Accessories & Spark Plug Leads
- Flow Indicators & Gauges

THE ENCINO ADVANTAGE

As a service provider, we understand our role in helping clients meet their compliance obligations and achieve their environmental performance objectives. Whether you need one piece of the puzzle, or the entire picture, we can help design and tailor an emissions monitoring and performance program that fits your operational needs, corporate strategy, and budget.
